Coaches,

If you have a pool and timing system, you will need to purchase Meet Manager and Team Manager from Hy-Tek. This will eliminate potential errors in scoring and timing of the meet you are hosting. If you are purchasing for the first time, you will also need to have your technology department install the driver that allows the timing system and Hy-Tek on your laptop to communicate during the meet. Please ask Hy-Tek about this driver and specific cables for your timing system.

Team Manager

- Create your team(address, DOB, grade, emergency contact) to send to the coordinator.
- Track performance stats
- Rankings and records(personal & team)
- Declare meet entries and export to the meet host
- Import results from Meet Manager.

Meet Manager

- Run and score any swim meet
- Connect to Timing Consoles, Scoreboards
- Real-time results to the web.
- Create Team Manager files of results to send to the coordinator.
- Create PDF of results for Section XI website
- Uses files from Section XI coordinator to create entries for League and County Championships.

If you have any questions feel free to call me.

Rich Lionetti
Section XI Coordinator Swimming & Diving
